Sensitivity: Confidential

Subject Tracking for Sponsor, ...

Valerie,

Attached is the subject tracking log for the long term JLI (28123). It contains information requested by Bettie, but it also has dates and visits for all four groups.

It is not completely up to date with subject information, but I think it will help.

Thanks
Kim

Kim:
Can you please send me an e-mail with the dates that each of the JLI long term study groups met their 3 mos. exposure? I need to revise a schedule with specific dates. If you could send to me by Monday afternoon that would be great.

Thanks in advance,
Valerie
